Specify the sections of the ASI Elections Code you allege were violated and by whom, or other conduct and by whom, which allegedly unfairly affected the election. Remember that only one candidate may be named. Please be as specific as possible.

Candidate Mark Anthony Sohl submitted an inaccurate expenditure report in which he failed to properly report the amount of money he spent in his campaign.

EVIDENCE
Please provide a brief summary of the oral and written evidence in support of this complaint including the names of witnesses you expect to testify.

The first series of documents details the identified services that were provided and not specifically reported in addition to a number of discrepancies in his expenditure report.
Specifically the design of the websites and the amount of business cards purchased

REMEDY
Please propose one or more remedies the Election Complaint Committee is authorized to grant under part XI of the ASI Elections Code a remedy that you believe would be fair to settle your complaint.

A failure to properly report all expenditures and especially an attempt to hide the true cost of his campaign should be responded to with disqualification. He clearly spent above the $500 cap and failed to report it.

Complaint Part I

Failure to Report Actual Costs of Campaign Website
Election Code.

In addition, the cost in professional labor to create a website of the quality shown in Figure 4 would be

\$8,000

Domain Name - \$73,95 (was reported from expenditure report but from different source)

Media Temple, Inc (hosting service) - \$60 monthly

Un-reported expenses (see Figure 3)

Total expenditure: approximately \$420

Averaged cost of website domain name: \$8.00

Candidate Reported:

Of gifts/donations at their retail value (refer to next slide).

The $5,500 spending limit, additionally, the election code specifies that the expenditure report must include a list.

The candidate had reported the actual commercial cost (regardless of donations), the candidate would be over.

According to the election code, candidates running for an executive position can spend no more than $500.

Wordpress, its SSL certificate is issued by Go Daddy. The website was registered with Enom (Figure 2).

According to a website analysis by Stratasite, the website is hosted by Media Temple, Inc.

In this expenditure report (reported at \$8), there is more to the candidate's website than just a domain name.

Purposes (Figure 2). I am alleging that the commercial cost for the website is more than the candidate reported.

Mark Anthony Solhi, candidate for Vice President of University Affairs, created a website for campaigning.
The candidate also mentioned the existence of his website in his campaign materials. However, the candidate's website was not frequently visited.

Elections Complaint Part II

The first picture is of a stack of business cards reported at 250 cards. The white in the image below the two cards are more cards stacked horizontally.

The second stack is of about 500 cards, clearly the amount of cards reported and in the first picture is substantially different. Based on this and the fact that every candidate running with VISION submitted nearly identical reports, it is logical to assume that Mark Anthony also misrepresented the amount of cards he purchased.
